# Presidents' Community Partner Award

## *McGregor Memorial EMS*

## *University of New Hampshire*

McGregor Memorial EMS is a regional, non-profit organization providing emergency healthcare and education to the New Hampshire Seacoast Region. McGregor EMS is a volunteer organization that relies heavily on the commitment of a dedicated core of volunteers. Approximately 40 students volunteer with this organization annually, and each student volunteers an approximate 51 hours per month during the academic year. These volunteers are working as EMTs, AEMTs, or Paramedics, and go through an extensive training program in addition to their medical certification, and then serve on an ambulance responding to emergency 9-1-1 medical calls. These providers are trained to treat critically injured patients and care for them while transporting to the hospital. This reciprocal relationship with McGregor EMS benefits the local community, and is also an incredible opportunity for our students to enhance their skills and build experience. The University of New Hampshire is grateful to McGregor EMS for all they do for our campus and beyond.
