

Granite State Leaders

Service Project Guidelines

The Service Project is a required element for the Granite State Leaders program.

The type and scope of the project is entirely up to you. However, we have a few guidelines we ask that you follow in completing your project. These guidelines are listed below:

1. Consult with your Community Service Director to identify a community need.
2. Develop an action plan for addressing the community need.
3. Recruit a minimum of 5 volunteers to assist in the planning and/or the execution of your project.
4. Utilize social networking sites in your action plan.
5. Consult with your Community Service Director to plan a reflection activity at the completion of the project.
6. Submit a completed Service Project Completion Form to CCNH. This form must be signed by your Community Service Director.

Service Project
Completion Forms
are due
March 29, 2010
