PRESIDENTS' COMMUNITY PARTNER AWARD

Granite United Way

Granite United Way
New England College

Granite United Way serves over half a million residents in NH and VT and covers nearly 80% of the state's geographic territory. In communities across America, approximately 1200 United Ways improve lives by mobilizing the caring power of their communities. More than fundraisers, United Ways are partners in change, working with a broad range of people and organizations to identify and resolve pressing community issues.

In New Hampshire, Granite United Way is committed to investing in the areas of the community with the most critical needs - education, income and health. By focusing on these investment initiatives, Granite United Way helps people in a new way: by breaking negative cycles and tackling the root causes of problems to create lasting change.

Granite United Way has been instrumental in providing support and advice to the new NEC Concord site, an office focused on providing experiential learning opportunities for students. Not only for providing input and advice, but for taking on three NEC interns in a year and a half, Granite United Way is recognized with this year's Presidents' Partner Award.
