PRESIDENTS' COMMUNITY PARTNER AWARD

BOYS & GIRLS CLUB
OF GREATER SALEM

Boys and Girls Club of Greater Salem
Granite State College

The Boys & Girls Club of Greater Salem, NH, was founded in 1967 to inspire and enable all young people to realize their full potential as productive, caring, and responsible citizens. Today, it's a vibrant community offering affordable memberships to more than 2,000 youth annually.

In 2014, teacher candidates from the School of Education at Granite State College launched a partnership that provided new programming through the creation of a Science Camp and Math Club. This partnership has expanded opportunities for the Club, while providing GSC students a setting in which to sharpen their teaching skills and serve as the framework for required courses in the teacher candidates' programs.

The Boys & Girls Club has a priority in programming for the kids they serve that ensures that members from all developmental stages participate in programming that focuses on Education, Health & Fitness, and Character & Leadership. This partnership helps the Club to better address its member's educational needs while making learning fun!

This collaboration fulfills the needs of both the GSC and the Club by providing an innovative way to grow quality programming. It's a true partnership that both institutions are proud to offer for the greater Salem community.
