Presidents' Good Steward Award

Jim Miller

Director of Institutional Research

Granite State College

Jim Miller, Director of Institutional Research for Granite State College, is recognized by his colleagues for his generous contributions to his community and the state of New Hampshire. Through board and committee service, Jim has supported the work of the NH Center for Nonprofits for the last 12 years as they have brought training programs and resources to assist organizations throughout the State. Jim helped his wife create an Arbor Day-certified Nature Explore Classroom in Canterbury NH to provide kids with fun hands-on learning programs in the great outdoors, something he cares deeply about. He is active in his son's Boys Scout troop, and annually volunteers at the Hopkinton and Canterbury Fairs. Besides being very active in his church, Jim performs as part of a Shaker/folk choral group and annually sings the National Anthem for the GSC graduation ceremony. He is also known for his authentic volunteer performances as "Abraham Lincoln" on President's Day at various area schools. Jim's wonderful sense of humor and his unassuming steadfast service quietly inspires others to "be" that helping hand in our college campus and our home communities.

Campus Compact *for New Hampshire*
