Presidents' Good Steward Award

Lynn Andersen

Nursing Faculty

Rivier University

As a faculty member in NSG455 Professional Capstone, Lynn has significantly advanced service on the campus by providing exceptional service learning opportunities for students. Lynn is deeply connected to the mission of Rivier University and her passion in giving back to the community can be seen in the service learning opportunities she offers undergraduate nursing students. The following are examples:

• Boys and Girls Club of Nashua: Lynn leads a group of nursing students in performing health screening and wellness teaching to children and adults.

• Nashua Senior Center: Health Screenings at the Center provide a wonderful opportunity to give back to the elders of our Nashua community. Lynn is at the center of this experience working closing with nursing students as they carry out a variety of wellness screenings and activities.

• Biometric Screenings at Rivier University. Lynn participates and mentors nursing students during Rivier DON's Wellness Connection's biometric screenings for Rivier faculty and staff providing needed health promotion to the Rivier community and invaluable training for nursing students.

• Co-chair of the Rivier Division of Nursing's Wellness Connection. The DON's Wellness Connection assesses health needs of the Rivier and Greater Nashua community and then plans and organizes wellness activities to meet those needs.

As a nurse educator she provides students the tools and service learning opportunities to also make a difference in the lives of others. She consistently goes above and beyond to build and develop service opportunities for her students, to strengthen Rivier's outreach to the community and to serve those in need within our community.
