Monica McKeon

Plymouth State University

Community involvement was already a part of Monica's life prior to arriving at Plymouth State in 2011. She was active in the Nashua School District as an Elementary School Student Aide and a Preschool Student Aide. Once at Plymouth, Monica continued working with youth at the Pemi Youth Center (PYC) where she was a Youth Advisor Coordinator and also was an intern at PYC through the Psychology Department. In addition to her role at the Pemi Youth Center, Monica also serves as the Student Representative on the Service Learning Partnership Committee at Plymouth State. She also is an active participant in Community Conversations, which brings community partners, university faculty & staff and area citizens to the same table for discussion on issues impacting our area. Monica's other involvement while at PSU include: participating in the International Service Trip to Petersfield, Jamaica and presenting at the New Hampshire Young Women's Conference. This past summer, Monica also worked at Girls, Inc. in Nashua. Monica continually finds ways to embrace volunteerism and community and makes a difference in Plymouth and her home town.
