

PRESIDENTS' COMMUNITY PARTNER AWARD

Congregational Church of Henniker New England College

Since 2014, The Congregational Church of Henniker has been an invaluable partner in collaborating with NEC's First-Year Program to provide our new students with an opportunity to serve the Henniker community and to make important connections.

Through Church-run initiatives such as the New Life Thrift Shop, Food for Friends and the holiday Giving Tree program, nearly 500 New England College students have been given a taste of local service and have made contributions to the Henniker community. These valuable experiences for our students not only help them better understand the community in which they live and contribute to improving their community, but they also allow community members to better understand our students. These benefits have been realized because of the wide variety of initiatives that the Church undertakes to improve the lives of those living in Henniker.
