

# PRESIDENTS' GOOD STEWARD AWARD

## *Beth Gerald* *MCPHS University*

Ms. Gerald's work in educating the public on the dangers of heroin use and the administration of NARCAN is only one of a number of reasons that she is deserving of this year's Good Steward Award. Other activities Beth has been involved in include; a presentation given at NH Osteopathic Assn. Winter Symposium, organizing a student-to-student initiative to educate local high school students on how to recognize overdose and administer NARCAN. In addition, Ms. Gerald has been instrumental in organizing student participation in the Dempsey Challenge to benefit cancer initiatives. Her enthusiasm for these topics is infectious and thus makes her a worthy recipient of this award.
